Commercial UAV Forum is Europe's newest destination for industrial drone innovation, launched as the European extension of Commercial UAV Expo—the leading commercial drone event held annually in the United States. Tailored for professionals deploying UAVs in industrial settings across Europe, the Forum offers a focused platform for solution providers to engage with drone pilots, project managers, regulators, and industry leaders.

Exhibit your latest drone solutions, gain actionable insights from targeted educational sessions, and forge valuable partnerships within Europe's rapidly evolving commercial drone landscape. Commercial UAV Forum is your opportunity to accelerate innovation, strengthen your presence, and grow your business by connecting with decision-makers driving UAV adoption across key sectors in Europe.
